

## Little Stars, Big Community Helpers!

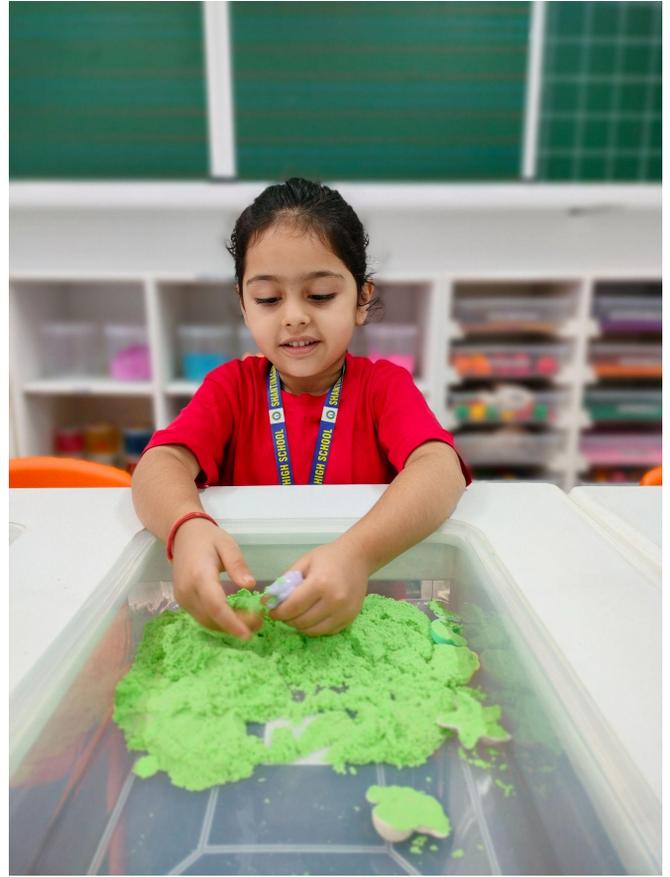

Our tiny tots stepped into the shoes of community helpers, dressing up as doctors, policemen, teachers and more! They confidently spoke about their roles, learning value of teamwork and helping others in everyday life!

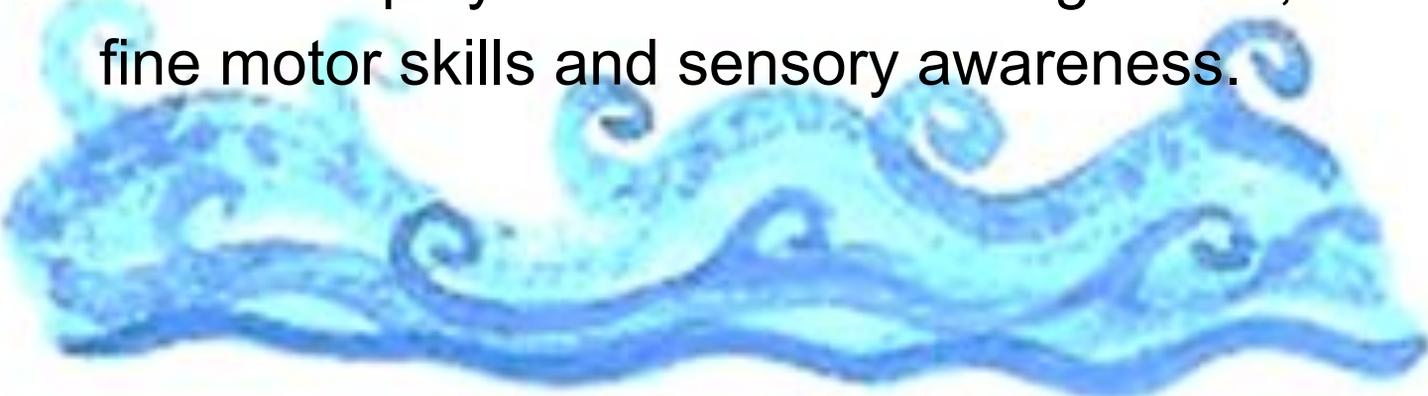

Through this roleplay, children built confidence, communication skills and respect for those who serve us every day.

## Ocean Creatures Come Alive In Sand!

Children joyfully moulded water animals using kinetic sand, exploring textures and marine shapes with creativity. This hands-on play enhanced their imagination, fine motor skills and sensory awareness.

# Threading Fun and Creativity!

Our little stars enjoyed lacing colourful pasta to make their very own necklaces, building fine motor skills while expressing their creativity with joy!
