

Empowering Educators, Enriching Learning

Over the span of four insightful days, our teachers engaged in enriching sessions designed to strengthen classroom practices and align learning with national frameworks. Ms. Aditi set the foundation by deepening understanding of the NEP and NCF, followed by Ms. Monika Motwani's impactful session on crafting assessments for deeper learning aligned with NEP 2020 and NCF 2023. The learning journey continued as Ms. Maria Petiwala enhanced our perspective on language and literacy and the session "Join the Dots" helped educators connect concepts for holistic learning at the foundational stage.

Ms. Anahita Lee guided teachers in strengthening English competencies with practical teaching approaches.

Ms. Shalini Nair energized the learning with Fun First: Joyful Teaching Strategies, inspiring teachers to create engaging and happiness-filled classrooms.
