

Twist, Sort & Create Patterns

Children explored patterning by arranging different colour pasta in repeating sequences. This hands-on activity enhanced early math skills, visual discrimination, concentration and fine motor coordination through fun, tactile learning.

Build What You See, Create What You Imagine!

Children observed picture cards and constructed matching structures using wooden blocks. This activity strengthened visual perception, spatial awareness, problem-solving, concentration and hand-eye coordination through purposeful play.

Dip, Print & Bloom Into Art!

Children dipped balloons in paint to create colorful prints on paper and transformed them into blooming flowers. This creative activity encouraged imagination, sensory exploration, fine motor skills, and artistic expression through joyful process art.
